Executive Summary

01

What is February?

February matches people using data from questionnaires and scientific compatibility frameworks.

February's main focus is to bring these highly-compatible people out to hosted events, hosted by you!

Every event provides at least 3 matches (a triple date or larger) using highly intentional activities designed specifically to foster deep, natural bonding between the matches, like teamed boardgames etc.

Event Structure

02

This structure is a flexible baseline. Feel free to adapt, tweak, and or completely change the timeline based on your hosting style and what you know works best for the crowd.

Phase 1: The Arrival – 15 Mins

Dynamic: Guests will arrive, and they are seated in their assigned spot (teamed together with his or her match).

Host Role: Welcome them and hand them their first drink, and direct them to their table.

Phase 2: The Games – 45 Mins

Dynamic: This is where the team games will kick off. The games are chosen to force cooperative decision-making and lighthearted debate.

Host Role: Facilitate the games, managing the group's temperature.

Phase 3: The Open Floor & Safe Exit – Last 30 Mins

Dynamic: The structured games will conclude. The table transitions into more casual conversation.

Host Role: Announce the wrap-up of the games segment. Inform them that their post-event feedback will drop in the app, and let them continue conversation naturally. You can exit the hosting role here.

Let's Partner Together

Thank you for your consideration!

if you are down to jump on board, here are our three next steps:

- Agreement Confirmation: Confirm you are good with the proposed \$20/pax rate and the \$100 minimum guarantee.
- Asset Drop: Send over 2–3 high-res photos of you and your past events to feature them in the site to showcase credibility. We will credit ooohclub.sg as a link to your site/instagram.
- Game Selection: A quick 10-minute sync call or text plan to finalize the specific board games/activities we will lock in for the night.
